In November 2023, the TRON network was used by various terrorist organizations, including Hamas, Hezbollah, and Palestinian Islamic Jihad. The TRON DAO released a

statement emphasizing their support for the UN's stance against malicious actors in the blockchain space, but disputing the claim that TRON, Ethereum or similar decentralized protocols may exercise direct control over those who leverage this open-source technology. According to a 2025 article in the Wall Street Journal, it was stated that "more than half of all illegal crypto activity—some \$26 billion" passed through the TRON network, with the WSJ describing it as a "popular channel for crypto's criminal fraternity to move funds".
